

Today's assignment:-

1. On your system, install gcc (c compiler). [Check online for installation. [A link is provided for reference.](#)]
2. WAP (write a program) that prints "Hello World!!". (Send me the source code <demo.c> file and a screenshot of your output (png, jpg, etc. file))
3. Write the answers to the following questions in a word document file:-
 - a. What are High level languages and Low level languages? How are they different?
 - b. Write in detail the features of the C programming language.
 - c. Write differences between a compiler and interpreter.

Submission guidelines:-

Your output should be

1. Source code <demo.c> file.
2. A screenshot of your output.
3. 1 Word document for your answer 3.a, 3.b, 3.c (maximum 3 pages or less).

Zip (compress) all the above three files (source code, screenshot, 1 word document) as Your roll number e.g. if my roll number is 123cs567 then name of zip file should be <123cs567.zip>

Maximum size of your zip file should be less than 1MB.

Use the following link to submit your zip file:-
